

# Application

The tape can be used on all smooth surfaces, but not on textiles. Possible applications: Door handles and window handles.

1. When applying the tape, make sure that the surface is dry, free of oil, grease, dust and dirt.
2. Remove the transfer film on the back.
3. Attach the adhesive side of the textile onto you handle bar, making sure to center it within the surface area. Gently smooth the textile from the center to the edges.
